3	THE CHAIRMAN: possible can we	3	WHEREAS, the Applicant has applied
4	move to change the ag da ar nd to move item	4	to the Town Of Haverstraw Zoning Board of
5	2 and item 3 to the beginn ng of the agenda	5	Appeals (ZBA) for a home occupation special

THE CHAIRMAN: possible can we move to change the ag da ar nd to move item 2 and item 3 to the beginn ng of the agenda and then we take item on at the end of it. Okay. If the are per ple here, if not we will have to just die er that to later on in the meeting, if they are not here.

Let's go with Theills, 4 Dawson Road. Is anyone here? This is a home occupation. You want to establish a office for speech therapy.

MS. FIELD: Feigl Field, 4 Dawson Road, Thiells, New York.

THE CHAIRMAN: I think we had a discussion on this at the previous meeting. And at that time we requested that our attorney prepare a resolution. So at this time we will hear that resolution.

MS. TOMM ADDONA: Yes, this application was heard at your December 11th meeting. The public meeting was closed at that time. In the interim I did prepare a resolution at the Board's direction which was

WHEREAS, the Applicant has applie to the Town Of Haverstraw Zoning Board of Appeals (ZBA) for a home occupation specipermit to convert half of an existing attached two-car garage that is part of a single-family residential property to a speech therapy office, and

Whereas, the Applicant submitted signed and sealed plan set by Niemotko Architects dated November 12, 2022 and a revised September 6, 2024 consisting of (i) Title Sheet (T1.01)(ii) Existing & Demo Floor Plans (A1.01)(iii) Proposed Plans & Elevations (A2.01) (collectively, the "Approved Plans") and.

Whereas, a duly-noticed public hearing was opened on this application at the ZBA's regular meeting on December 11, 2024 and members of the public having the opportunity to appear and be heard, the public hearing was closed on December 11, 2024 and.

Whereas, having made personal

Page 7 as a singe family residence. 4, Will not utilize more than 25% of the dwelling or 500 square feet as the Applicant is proposing to convert half of a two-bay garage to an office and waiting room 5, Will be conducted in the attached converted garage and not in an accessory building or outside the principal building. B. All the proposed modifications to the garage will be internal, except for adding a door to access the office space, and therefore the appearance of the single-family residential building will not be altered and the xisting structure will not be changed fr m its residential character C, The Applicant will only have one clien on the property at a time such that the incr ase in vehicular traffic flow would be limited o one additional vehicle.

D, The Applicant d es not intend to have any signage associa d with the home occupation, bu if they were to do so, such signage would ha t comply with the requirements of the Zoning Cod for a home occupation to the satisfaction of the building inspector.

E, There will be no storage of standing of commercial or construction equipment or the outdoor storage of materials.

F, the Applicant is the sole operator of the home occupation and therefore there will not be more than one person outside the family employed in connection with the home occupation.

G, the home occupation of a speech therapy office will not create any noise, dust, vibration, odor, smoke, electrical interference, fire hazard or any other hazard or nuisance.

AND IT IS FURTHER RESOLVED, based

upon the foregoing findings, the Applicant's request for the speech therapy home special permit is granted subject to the following conditions:

1, The special permit is granted solely in connection with the Approved Plans and only to the extent that they are necessary for the Applicant to convert half of the existing garage to an office and waiting room for a home occupation speech therapy office. There shall only be one client present on the property at a time. Should there be any changes to the Property or the home occupation use beyond what is stated in this Resolution, either by the Applicant or their successor-in-interest, an application must be made to the Zoning Board to amend the special permit.

- 2, The principal use of the Property shall continue to be a single family residence.
- 3, The granting of this application shall not be deemed to relieve the Applicant of the need to obtain approval of any other

MR. CONW Y Good Evening Chairman Aldridge. Kevin Conway attorney for the application, 7 Stilk Lane, New City, New York.

The applicant proposes to build an addition to the existing single family house at the residence. The existing home is 3,502 square feet and the addition would compromise of about an additional 1,524 square feet, totaling 5,026 square feet in total. The addition would include two bedrooms in the basement, new dinning room, a study on the fist floor and a master bedroom on the second floor. Will avoid relocating the utility lines and maintain the home's flow and look. The addition is proposed on the right side resulting in a minor variance. The left side of the house has a garage and family room.

Mindi, if you can show. The left side of the

house has a garage and family room, which the applicant wishes to keep. The right side has the kitchen which they wish to extend. And living room, both will lead to a new dinning room located in the addition itself. Placing the addition on the right side minimizes the impact of the existing home will be providing more of an efficient flow within the home. Additionally placing the addition in the rear was limiting the use of the backyard as the property for a play area. As we went through the Board the last time there is an elevation to the back and a large stone wall, so the rear area would be -- the additional rear area is not usable for that purpose. The proposed addition is here on the side otherwise we had discussion with the board previously if this would be located in the rear there would be no play area and no make sense to have a side play area, as most homes are not going to have a play area located on the side of the home. The required side setback is 15 feet. The proposed side setback is 10 feet.

Previously we had first appeared to the Board -- there is also -- the steep slope in the rear starts about 20 feet behind the house. There is also a dry wall that will be placed in front of the house to ensure zero net runoff. The applicant first appeared before this Board on July 10, 2023, requesting a variance of an additional 9.5 from the side property line. The applicant since revised the plan to be 10 feet from the property line. The addition has thus been reduced by 60 square feet. The applicant seeks the required proposed side back of 10 feet and the required is 15.

23

24

25

We also submitted a copy of the plan to the Board and the layout and schematic of the plans for each of the rooms as well, what the house will look like. We did submit some additional documentation to the Board, which I don't know if the Board looked at but I am going to briefly go through it. We sent a letter to the chair from my office Kevin Conway, dated November 21, 2024, advising the request to reduce the required 15 feet's de setback to 10 feet. We want to express he

Page 15 potential hardships which is the basis by Shlomo and Aliza Hauer for the variance being made. The avoidance of undue financial hardship.

Denying the requested variance would compel our clients to modify the construction plans forcing them to build to the rear and left of the property instead of to the right. Such requirement would result in additional cost as listed blow.

A, shifting and breaking walls incurring approximately \$150,000 of additional cost to the existing home. Redesigning the roof configuration would result an extra building expense and cost of 3,000. Constructing an new retaining wall e imated cost starting about 50,000. And und taking drainage improvements at an approx mate cost of 15,000.

Implementing these changes probably new architectural plans would need to be drawn and submitted and the associated cost for preparing and submitting the new architectural plans would add about 17,000 additional expenses to the applicant.

ge 16

There is minim impact n the adjacent properties. T e pro osed setback of 4 and a-half f would not materially af ect the ighb ing properties as they e st today. In ontrast requiring constructio towards the rear would impose a far greater imp ct of pr acy, use of enjoyment. And li ination of a rear play area and use of outdoor spaces. The minor need of the proposed variance ensures that it aliens itself with the character and the use of the existing neighborhood. The preservation of light and airflow. Also the propose of the 10 feet setback preserves sufficient spacing between the properties ensuring compliance with zoning codes objectives to maintain access to sunlight and airflow for all the neighboring property owners. And the proposed plan also adheres to the safety regulations ensuring the emergency access, fire safety protocols and utility instillations meet the local requirements. The proposed construction would not interfere with the ability to

maintain safe conditions for the applicant's

property or neighboring property. 1

> And our client is committed to high quality design and landscaping that will enhance the overall appeal of the neighborhood. We indicated at prior meetings we would add additional buffering or screening, such as planting evergreen shrubs or bushes along the property line in accordance with the town requirements. To both contribute to the beauty and functionality of the surrounding area.

And we also had asked -- there was additional cost proposed design change. We had submitted a letter from Mr. Mindi Weiss from the Corner Stone Building company regarding the option to narrow the extension from 15 to 10 feet and find new space in the rear of the house or the left side. This change would result in a significant additional cost for the customer. The cost of moving the baring wall in the rear of the existing home would be well over 150,000 not including the additional expenses for redesigning, architectural, and engineering

Page 17

work implementing these changes. That was

submitted to the Board also dated January 8th.

We also had undertaken a search because before the prior board there was one neighbor that objected. The prior Board had indicated, which I was surprised, can you give us some examples of prior instances where we given a prior variance. There is only one variance here of the 10 feet or less or anything similarly. As I noted before, I don't think I told the Board, the actual size of this yard is quite large. This is an approximately 25,000 square feet lot. We are required to have 10. We would greatly exceed that. We are only seeking the side yard variance. The maximum development coverage we are well within. The maximum development coverage and maximum building coverage itself we are well within. Normally when the client comes before this Board whether it's a new property or a new project altogether with a new structure or addition if the size of the lot is undersized you will need relief f om virtually every category of the bulk ta le. This application by contrast has only on

small variance for the side yard, and that is because the lot itself is quite large. Existing homes -- most developments now you will see everyone -- the market is always changing from putting a new home entirely to an addition. As of late it's more additions that are being proposed. But to accomplish the addition to the rear would be quite expensive as opposed to the side. Most people -- in a case like this you want to have a rear play area, you wouldn't have that, that would be eliminated with this based to oddities of the property. If you look at zoning relief you look at several factors, most of which is the size and unique d mensions of the property. This one has t t because it's quite large but the rear por n because the elevation and the existing stone wall prohibit placing this in the rear area. Where if it was flat and not that contour of the twenty feet that would otherwise be a viable option. So when an applicant comes to Board they come to the Board for relief not for strict adherence to the zoning code. And here we are strictly

seeking one very small ariance,

We did provide to is B rd by looking at other similar situ ed properties, we provided zoning ard ap eals resolution for 22 Dun gon Drive, Pomona. From the Town of Haverstra Zoning Boa d from the determination o the buil ng inspector dated March 20, 2024. A lo ed an area variance of 10 and-a-half feet to allow a side yard setback of 9 and-a-half feet where 20 was required. The Board held that there was in citing all the factors but specifically there would be no undesirable change produced in the character of the neighborhood or detriment to the nearby property in result of that variance. In this case there was an existing deck on the side of the house of 291 square feet that already encroached to the side yard and the applicant was proposing to reconstruct the deck with a modest 251 square feet. The other neighbor's property had rear decks as well.

We had another example we provided dated February 16, 2022 from this Board where there was a proposed 35-foot by 25-foot

additions to an existing dwelling that did not comply with the bulk tables. The additions required a variance for front yard. A variance for front yard, a variance for front yard setback for 4.7 because we are looking at side yard. A variance that would allow accessory building setback of 5.3 feet where 10 was required. Again the Board held that was not specifically -- there was proposed addition that could be placed. The location was limited for practical purposes based on the layout of the house and the improvements in the property. The property in this case was also a corner lot and as a result has complied with the requirements of a front yard setback on both sides. But I am referring to the side yard setback. The Board did not believe the addition would result in over utilization of the property as the proposed addition would not exceed the building lot coverage as ours. We do not exceed or come close to the lot coverage as this is quite a large lot.

We also submitted another comparison. The zoning did grant the

T is is the only existing basement. 20 MR. MERRIWEATHER: The purchase wa 20 It's a smal existing basement. 21 made with the hope that they would be able to THE CHAIRMAN: Is there anyone else? 21 22 make this addition of 1,524 square feet. Any questions from the Board. Thank you. Is 23 MR. CONWAY: That is correct due to 23 there anyone from the public that want to 24 the size of the family and everything. 24 speak on this matter. 25 THE CHAIRMAN: What's the size of 2 State your name? Page 29 1 MS. TULLY: Ste ha Tully One Have And that basement is a big basement, not 1 2 Crest Drive. I made my points here bef 2 small, I was in it many times. It's not 3 Do I have to talk about them 11 over again. 3 small. It's going to dwarf my house. It's THE CHAIRMA Yes 4 4 one level and the backyard. How it's built 5 MS ULLY: First ere had been a 5 into the property, it's only one level there. resolution alr ady, right? 6 6 So that is a big concern for me. Also the MS. TOMM ADDONA: No. There was no 7 7 potential to negatively affect my property's 8 decision made by th s Board because of the value with it being that close. The attorney 8 9 turnover in the composition of the Board. 9 said it will not have any material impact, we 10 MS. TULLY: Each meeting said there 10 don't know that. It certainly will have a 11 was a resolution on it. I assumed there was 11 material impact once I sell my house. The 12 water problems I had mentioned before but one. 12 13 MS. TOMM ADDONA: I apologize if 13 they said they are going to put a drywell in. 14 The other concern -- it was a 10 and that was stated, it should not have been. 14 15 MS. TULLY: My backyard abuts their 15 a half foot variance now it's a 10-foot 16 side yard. So it's not like a usual variance variance. There is also window wells that 16 17 where -- it is the side yard variance for 17 stick out, 3 feet or 5 feet. I am not sure 18 them, it's my backyard, it's not side to 18 exactly. I am not sure why that is not 19 side. So any time I lookout of the window I 19 included in the variance. The window wells 20 will see this house. I had given you 20 for the basement. 21 pictures before of my backyard you still have 21 MS. TOMM ADDONA: The building them in the record so if you can show it to 22 22 inspector will make that interpretation. We

23

24

25

did look into that after you brought it up

and for something that low to the ground --

MR. BEHN: That would not negatively

the new board members. My top concern is the

close proximity of the house to mine with

that extension, two level plus the basement.

23

24

25

Page 30 1 impact on the adjoining property. That is 2 the same with the air conditioning units, heating units things of that nature. It's 3 4 pertains to the structure it's not included 5 in the setback. 6 MS. TOMM ADDONA: That was something 7 that was looked into. 8 MS. TULLY: It's the wall not what 9 comes out. That is just my main concerns, 10 the close approximate to my backyard, not the 11 side vard. 12 THE CHAIRMAN: Is there anyone else. 13 MR. WEISKOPF: Jeff Weiskopf, 14 W-E-I-S-K-O-P-F. 15 I am a little nervous. I am not 16 used to speaking in public. My children are 17 the ones that bought the house, I helped them 18 buy the house. They moved here to be near 19 their mother, my wife. And so they can help 20 with the children. They had another baby a 21 few weeks ago. They rented a little house in 22 Haverstraw, which is not okay, until we get 23 this done, they had no choice. I feel badly 24 for this lady where change is hard and 25 progress is hard. When you are living in n in the back, more of the yard is overed. 1 The 10 feet we have to do on he sid vway. 2 3 We are willing to work, p bushes. We put less window on that de, it the second 4 5 floor anyway. We are ta king about 4 and-a-half f et. I am ask ng please to let 6 7 us have this. Te gentleman, our lawyer, we 8 hired we spent a 1 t effort to find other 9 precedent in the town for it. It was done 10 numerous times. I think I addressed 11 everything. What I have not addressed is that Haverstraw is growing. And more and 12 more families coming here. We know a lot of 13 14 people that moved here. They put in 15 additions to their house. They have growing 16 families. Making this house nicer, better 17 and bigger and bringing families together are 18 only increasing the values in Haverstraw,

it's not decreasing. And I know it's hard

for this lady, her friend sold the house and

not there anymore and change is difficult.

But one day if she sells her house it's going

to go up in value, not down. Will I be sure

of that, no, but commonsense says that. We

are asking that you approve the 4 and-a-half

19

20

24

25

Page 31 area and house for a long time and someone coming next door to you. Your friend sold the house, it's hard to get used to the change. And I feel for her. Number two, there was some inaccuracies here. I've been in the basement, there is no place to put another bedroom in the basement the ceiling is too low. They are going to build an extra bedroom so I can come with my wife and be with our children and our other children be with them on the weekends so you need a place to put a guest bedroom downstairs with a bathroom. You cannot do it the way it was done. The second thing is we gone back many times. There are delays and it is no one's f ult. We changed the variance. We went f m 10 and-a-half. We are talking about 4 and half feet. Everything is important. We are willing to put up bushes. Give her privacy. Going to the back which we tried to do when we realized the lady and her husband were not happy with us moving. It cost too much money. When you break the back of the house the cost becomes crazy. Plus it's going to be less privacy for her if you build

variance. I think we presented the case properly. And spoken about the variables. It's a tremendous financial hardship to do something else with this house. And other people have done it in Haverstraw. We respectfully ask that you approve this 4 and-a-half feet variance? I hope I presented properly what we feel and think. Okay.

Page 33

MS. TOMM ADDONA: Thank you. THE CHAIRMAN: Thank you. Anyone else from the public wish to be heard on this matter. No. Any Board members have any questions or comments? Okay. May I suggest that we have our attorney draw up a resolution pertaining to this matter and we hear that resolution at our February meeting. And bring this to a conclusion at that time. Can I get a motion.

MR. MERRIWEATHER: So moved.
MR. BRITO: Second.
THE CHAIRMAN: All those in favor.
(Whereupon, the Board responded

aye.)

THE CHAIRMAN: Okay. This matter will be held over until the February meeting.

Okay. Our next item is the Ripples. Anyone here for the Ripples, no.

MS. TOMM ADDONA: Mr. Chairman, this was also on the December meeting. The Board discussed this and asked me to draft a resolution as no one is here on behalf of the applicant. I can briefly summarize the contents of the resolution which was previously circulated to the Board for your review? And then we can provide that to the applicant. And we'll ask that the entire resolution be incorporated to the minutes.

Whereas, the Applicant has applied to the Town of Haverstraw Zoning Board of Appeals (ZBA) for a home occupation special permit to utilize a fourth bedroom in their existing single-family home as a real estate office, and.

Whereas, a duly-noticed public hearing was opened on this application t the ZBA's regular meeting on December 11, 2024 and members of the public having the opportunity to appear and be heard, the public hearing was closed on December 11, 2024, and.

Whereas, having made personal inspection of the premises and being familiar therewith and after duly considering all the proofs and evidence before it, this Board determines as follows:

It is hereby resolved, this is a Type 11 action under the State Environmental Quality Review Act and therefor no further action is required; and.

AND IT IS FURTHER RESOLVED, the Board makes the following findings related to the proposed real estate office home o cupation based on criteria set forth in Zon g Code 167-26 for a home occupation special ermit.

A, the proposed real estate office:

1, Is a home occupation as defined in Zoning Code 167-3 - the Town Board expressly amended the definition of home occupation in November 2024 to make a real estate office a permitted home occupation.

ge 36

- 2, Will be operat d by the Applicants (Husband a d wif), who the owners and residents of the single-family dwelling:
- 3, W II be inciden 1 and secondary to the conti ed primary se of the property as a single-fam ly residence.
- 4, Will not u ili e more than 25% of the dwelling or 500 square feet as the Applicant is proposing to convert one of the four bedrooms in the house into a home office and;
- 5. Will be conducted in a converted bedroom in the house and not in an accessory building or outside the principal building.
- B, All the proposed modifications to the house will be internal, and therefore the appearance of the single-family residential building will not be altered and the existing structure will not be changed from its residential character.
- C, The Applicant does not anticipate having any clients at the home office as the nature of the business is to meet clients at prospective properties. However, if the

Applicant does occasionally have a client

come to the home office, there will only be one at a time such that the increase in vehicular traffic flow would be limited to one additional vehicle. Notwithstanding such, the Building Inspector as inspected the property and confirmed the existing driveway can safely accommodate an additional vehicle

for the home occupation use.

Board for an area variance.

D, Any signage implemented by the Applicant shall comply with the Zoning Code's signage requirements for a home occupation to the satisfaction of the building inspector. If the signage does not comply with the Code's requirements, the Applicant's remedy would be to make an application to the Zoning

E, There will be no storage or standing of commercial or construction equipment or the outdoor storage of materials.

F, The Applicants (husband and wife) are the sole operators of the home occupations and therefore there will not be more than one person outside the family

Page 38 Page 39 residence. 1 employed in connection with the home 1 2 occupation. 2 3, the granting of this application 3 G, The home occupation of a real 3 shall not be deemed to relieve the applicant estate office will not create any noise, 4 4 of the need to obtain approval of any other 5 dust, vibration, odor, smoke, electrical 5 board, department, agency or officer 6 interference, fire hazard or any other hazard 6 prescribed by law or ordinance with regard to 7 or nuisance. 7 the plans or construction or any other phase 8 AND IT IS FURTHER RESOLVED, based 8 of the project. The granting of this 9 9 upon the foregoing findings, the Applicant's application shall not be deemed to relieve 10 request for the real estate office home 10 the Applicant of the need to comply with any 11 occupation special permit is granted subject 11 and all other local, county, state and 12 to the following conditions. 12 federal requirements, including but not 13 1, The special permit is granted limited to compliance with the New York State 13 14 solely in connection with the interior 14 Uniform Fire Prevention and Building Code. 15 renovations to convert an existing fourth 15 4, This special permit is granted 16 bedroom to a real estate office. There shall 16 s bject to the accuracy of the 17 only be one client present on the Property at 17 r resentations made by the Applicant and its 18 a time. Should there be any changes to the 18 to th ZBA in its written submissions and 19 Property of the home occupation use beyond during e public hearing. If any material 20 what is stated in this Resolution, either by 20 the, whether or not it is included in this 21 the Applicant or their successor-in-interest, 21 Resolution, is found to be inaccurate, at the 22 an application must be made to the Zoning discretion of the ZBA the special permit 23 Board to amend the special permit. 23 grant may be deemed void, in which case the 24 2, The principal use of the prope y 24 Applicant must make a new application to the 25 shall continue to be a single-family 2 ZBA for approval of any and all special ge 40 Page 41 1 THE CHAIRMAN: Thank you. permits. 1 2 much. 2 5, The failure to o serve and 3 perform these conditions s 11 render this 3 (Time noted 7:44 p.m.) 4 4 resolution invalid. Dat January 8, 2025. 5 5 THE HAIRMAN: Can I get motion 6 6 7 pertaining to the resolut in. MR. MERRIWEATHER: So moved. 8 8 MR. CASTRO: Second. 9 9 10 10 THE CHAIRMAN: All those in favor. 11 11 (Whereupon, the Board responded 12 12 aye..) 13 13 THE CHAIRMAN: Anyone opposed. 14 14 (Whereupon, there was no response by 15 15 the Board.) 16 16 THE CHAIRMAN: Okay. The permit is 17 17 approved. Okay. That concludes the agenda 18 18 for the Zoning Board of Appeals. Can I get a 19 19 motion to adjourn. 2.0 20 MR. MERRIWEATHER: So moved. 21 21 MR. BRITO: Second. 22 22 THE CHAIRMAN: All in favor signify 23 23 by saying aye. 24 24 (Whereupon, the Board responded 25 25 aye.)
